## PEKIN IN PERIL AS ANFU TROOPS RIOT

Imperial Family Appeals for Protection to the Foreign Legations.

## MONARCHY MOVE SEEN

Forces of Gen. Chi-jui Refuse to Fight After Reverses South of Capital.

PEKIN, July 18.—It is reported that the troops in the suburb of Nan-yuan are out of hand and looting.

The Imperial family has appealed to the foreign legations for protection, fearing that they will be victims of Anfu propaganda, alleging that Gen. Wu Pei-fu is carrying on a movement for the restoration of the monarchy.

There is much apprehension in the capital, in view of the combined arrival of defeated troops and an alleged plan to wreak vengeance on the city.

The latest reports received here indicate that the forces of Gen. Tuan Chi-jui (Anfu General) met with a serious reverse to the south at the hands of Chinese troops, and that approximately 5,000 of his troops retired toward the capital and camped Saturday night outside the west wall, refusing to continue their operations. It is stated that the men had been for three days without food. The gates of the city were closed early Saturday and heavy guards prevented the entry of the troops while plans were being made to feed them.

On the Tien-tsin line the Anfu troops of Tuan Chi-jui have been driven back toward Chang-chuan. It is reported that ten trains loaded with soldiers of Gen. Chang Tso-lin have arrived at Pei-tang, north of Tien-tsin.

Chang Tso-lin recently served notice on the Chinese Government that he proposed to head an expedition to occupy Peking because Gen. Tuan Chi-jui had incited the brigands in Manchuria. Tuan Chi-jui is head of the Anfu or military party.

Tien-tsin, July 17.—A wireless despatch received from Peking this evening says that following an initial success in which Gen. Wu Pei-fu was driven back at Kao-pai-tien (about 50 miles southwest of Peking) a brigade of Wu Pei-fu's troops outflanked the attacking forces in the direction of Kien-fou-kou and hit the Anfu troops on three sides, repulsing them toward Lin-li-ho.

It is reported that the commander of the First Frontier Division was killed.

Out of the mass of conflicting reports it appears evident that Wu Pei-fu is maintaining his advantage south of the capital and that his troops have advanced slightly north of Lin-li-ho, which is about twenty-five miles southwest of Peking.

The operations around Lofa, on the railway midway between Peking and Tien-tsin, are alleged to be favorable

to the defence (Anfu) forces of Gen. Tuan Chi-jui.

In reply to a protest by the diplomatic representatives, the Minister of Communications has assured them that the Tien-tsin railway line will not be cut. Two trains from Peking arrived last night. The passengers report that the Anfu troops are evacuating Yang-tsun. They also say that students who had been in prison since January for anti-Japanese demonstrations, were released unconditionally yesterday. The prices of rice and other foodstuffs are rising in Peking.

## DISSATISFIED WITH REPARATION FAILURE

London Financial Circles Want Issue Settled.

Special Cable Despatch to THE SUN and NEW YORK HERALD, Copyright, 1920, by THE SUN and NEW YORK HERALD.

LONDON, July 18.—Financial circles in London reflect dissatisfaction over the failure of the Spa conference to settle the reparation clauses of the treaty and to map out the coordinating principles by which the Brussels Financial Conference is to work.

It is recommended, however, that dangerous developments both in Germany and Russia, made impossible further steps. The success of the disarmament demands and the maintenance of the coal demands in a general way so as not to impose unbearable hardships on Germany in general receive favorable comment.

## ARGENTINA PROTECTS GOLD.

Halts Deposits Calling for Payment From Embassy in U. S.

BUENOS AIRES, July 17.—The Minister of Finance has ordered the national bank to stop accepting deposits calling for equal withdrawals from the Argentine Embassy at Washington, such deposits being equivalent to the exportation of gold.

The action is understood to be due to the unfavorable exchange resulting from an excess of the importations from the United States over the exports. The total withdrawals for July already are \$3,590,000, making a total of more than \$4,000,000, and leaving a balance of about \$25,000,000.

United States dollars are quoted above par on the Buenos Aires exchange.

## HAS IDEALS FOR GUATEMALA.

Herrera, Nominee for President, Favors More Reforms.

GUATEMALA CITY, July 18.—Both the Democrats and Unionists have united on Carlos Herrera, Provisional President, as their Presidential candidate in the approaching elections. Herrera has issued a manifesto declaring that he finds no material difference in the platforms of the parties and announces his acceptance of the nomination.

Herrera favors strict compliance with the law guaranteeing individual rights and freedom of the press, union of Central American States, revision of the constitution by broadening liberal principles, reduction of the Presidential term to four years and prohibiting reelection consecutively, "in order that never again may one man remain in power indefinitely."

## FRANCE PAYS HONOR TO AMERICAN DEAD

Minister of War Lays Wreath in Belleau Woods Soldiers' Cemetery.

Special Cable Despatch to THE SUN and NEW YORK HERALD, Copyright, 1920, by THE SUN and NEW YORK HERALD.

PARIS, July 18.—While a detachment of French soldiers rendered military honors, Minister of War Lefevre this afternoon placed a wreath in the name of the French Government in the American cemetery in Belleau Woods as preliminary to the ceremony of the presentation of the Legion of Honor and the Croix de Guerre to Chateau-Thierry. Hundreds of American tourists and residents of Paris accompanied the officials, realizing that the presentation really was a tribute to America's part in the war.

The ceremony took place on Hill No. 204, where the American army, to use the words of Minister Lefevre, "added a golden page to French history." Here the Americans and French under Gen. Degoutte, with the French army of Gen. Mangin on their left, launched their attack in the second battle of the Marne on July 18, 1918.

Ambassador Hugh C. Wallace described the scene as "the valley of victory." Here, he said, "my valiant countrymen, standing side by side with their brothers of France, fought hard for the right and spared not, fought, suffered and died, but conquered. It is with solemn pride, inexpressible in words, that I recall what they did here for America, for France and for the world, and my hand rises in salute to the living and the dead as their dauntless spirits seem to pass before me upon the very field of their glory."

Minister Le Fèvre's citation of Chateau-Thierry recited: "It was not only the scene of terrible ravages of the enemy but of heroic battles where American arms were sealed by blood."

At a luncheon tendered by the Mayor of Chateau-Thierry it was asserted that it is only a question of weeks until the United States will grant the Distinguished Service Cross to the city.

St. Quentin, France, July 18.—The cornerstone was laid here to-day of the first of the French Protestant churches to be rebuilt in the devastated regions. Addresses were made by the Mayor of St. Quentin and the Rev. S. H. MacFarland of the Federal Council of Churches.

The funds for rebuilding the church were furnished largely by a New York woman, the widow of the late Rev. H. Roswell Bates of the Presbyterian Church. The exercises partook of the nature of a general civic demonstration and were participated in by many former refugees, including a thousand members of the church.

## The Last Swift-Flying Years of a Man's Life

ought to be the best if blest with fairly good health.

His past experiences have taught him much and they reflect light by which he may see more clearly the most important things to be done.

William and John Penn, Franklin and his associates, the first President and his noble wife, Martha Custis Washington, and the members of the first Cabinet of President Washington and their families, all helped to build imperishable foundations for our country.

Every citizen is what his men have been.

Making a personal and practical application of the one all-pervading thought of the foregoing, why should not the mercantile and manufacturing business men individually resolve to upkeep, enlarge, perfect and complete their enterprises to the betterment of the city?

## "I waited a long time

"At first, I couldn't quite understand what it meant; or rather, how much more it could mean. But one day in mid-summer I was sitting on the veranda of a house near the sea. All was still... I dozed... And then I was conscious of music coming faintly to my ear—music that seemed to be wafted gently over the water... I listened... And I recognized the prelude of Rachmaninoff...."

## The Chickering-Ampico

"—was playing it better than I had ever heard it played before; because, as I discovered later, the reproduction was Rachmaninoff's own... And then I began to think... The realization of what I could get from this wonderful instrument was just dawning upon me. The world's best music, played by masters of the pianoforte—not mechanically—just as the masters themselves had played it!... Gradually the field of musical vision unfolded, for I was a lover of music; and my life was not full without it."

"I had waited—a skeptic... But the time had come when something that I needed to make my life fuller, better, broader had arrived."
